

Instructions for the City of Glendale's Justice Precinct map

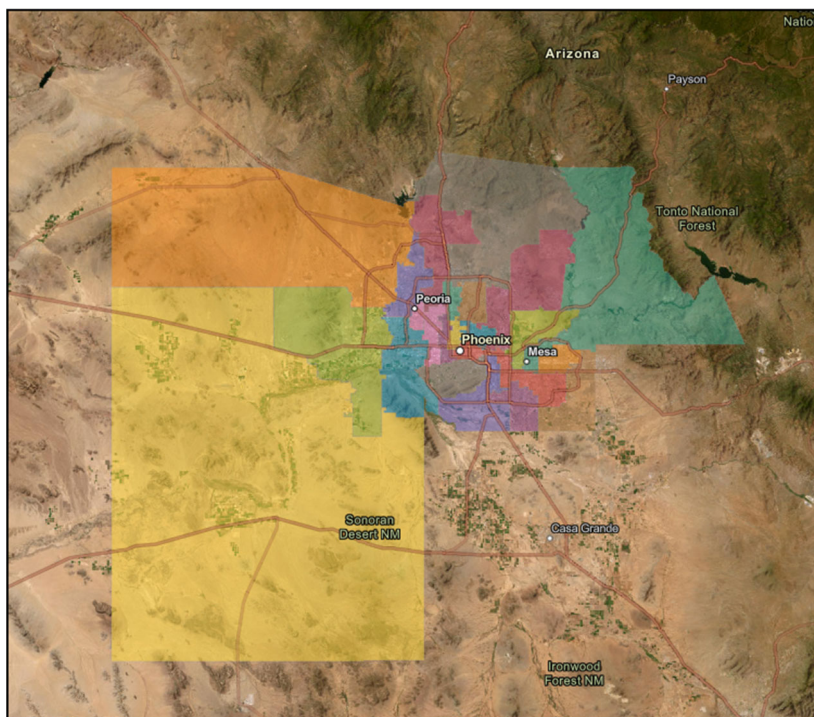

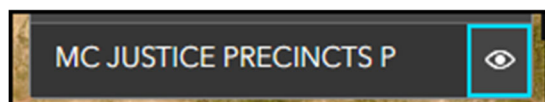

Use this shortcut link:

<https://bit.ly/4bovZVO>

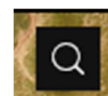

On the right side of the page, click the icon for "layers":

Ensure that you choose "MC JUSTICE PRECINCTS" and that it is not hidden (click the eyeball to unhide these).

You will then click the magnifying glass icon to search for an address:

When you type the address and press the enter key the map should zoom to the address you wanted. Each justice precinct will be a different color.

Ensure the resulting address is correct; the map will sometimes change the street name, the digits, east to west, etc. You can also move the map with your mouse to the correct location.

When you are at the proper address, click the colored area and a new box will appear with the name of the justice precinct at the top:

(0718), ENCANTO
